

Puppy II Class

This six-week class is a continuation of the Puppy Class but all dogs 5 to 12 months of age are welcome to attend.

We review the skills already learned in the Puppy Class and work on better reliability. We will spend more time on how to walk nicely on a leash, staying when asked, coming when called and responding to commands from a distance.

With the use of positive reinforcement and games we keep the dogs interested and eager to learn new things.

First class is without your dog.
